Your Spot

*Learn how to use collage  
to create therapeutic art*

Come explore your creative side in a relaxed setting at Northern Oklahoma hospice. Use collage in a restorative activity for coping with grief. Materials will be provided for an enjoyable Wednesday evening.

We will use photographs, paper and fabric to create an art post card. A collage technique can enable people with various skill levels to finish a piece of artwork in a short period of time.

*Stephanie is a new resident to Ponca who has been using art as a mode of recovery since 1990.*
